

Corporate Statement of Product Warranty

PrintMate warrants for 2 years that its inks and toner cartridges are suitable for use in the intended models of printers and are free of defects that could cause damage to these printers. Should it be shown that a printer is damaged due to the use of a PrintMate product, PrintMate will pay reasonable and customary charges for the repair of your printer, or provide an equivalent new or refurbished printer. A PrintMate approved Engineer must be consulted in the first instance. The use of this product will not void your printer's warranty.
